MAGAJI K. IBRAHIM

QA/QC ENGINEER | MECHANICAL & WELDING INSPECTOR | NDT SPECIALIST

Nigeria | major014real@gmail.com | +234 802 728 0757 / +234 810 150 3990

PROFESSIONAL SUMMARY

Mechanical Engineer and QA/QC professional with over 15 years of experience across oil and gas, power, pipeline, refinery and industrial construction projects. Expertise includes welding inspection, non-destructive testing (NDT), quality control, punch listing, hydrostatic testing, technical documentation and compliance with applicable codes and standards. Experienced in coordinating with multidisciplinary teams and supporting safety, quality and client requirements. Currently developing practical AI automation and software skills through projects using n8n, OpenAI API, Python fundamentals, web technologies and GitHub.

CORE COMPETENCIES

• QA/QC inspection and quality assurance	• Welding inspection (AWS / WPS / PQR / WQT)
• NDT: RT, UT, MT, PT, VT	• Pipeline and piping inspection
• Punch listing and mechanical completion	• Hydrostatic and pressure testing
• Inspection and Test Plans (ITP)	• Quality documentation and reporting
• Material receiving and traceability	• HSE compliance
• ASME, API and ISO standards	• P&ID and isometric drawing interpretation

PROFESSIONAL EXPERIENCE

Mechanical Punch List Engineer

Ashaka Cement (Lafarge Holcim), Gombe State · Coal Power Project (CPP) | March 2023 – Present

- Prepared, reviewed and managed mechanical punch lists and closure-status reports.
- Verified installations against approved drawings and engineering specifications; defined remaining scope of work and rework requirements.
- Coordinated material inventory, BOQ inputs, manpower and tooling; conducted QA/QC inspections on welding and mechanical works.
- Supervised contractors and supported compliance with quality and safety requirements.

QA/QC Engineer

Naston Engineering Nigeria Ltd. (Contractor: Omiti Engineering FZE) · Dangote Refinery & Petrochemical Project | September 2017 – 2020

- Prepared and reviewed welding, NDT, coating and painting documentation; maintained calibration and test certificates.
- Reviewed WPS, ITPs, NDT procedures and drawings; performed stage-wise welding inspections and checked compliance with project quality plans.
- Coordinated material inspections, storage and traceability; prepared final data books and quality dossiers.

QA/QC Engineer

Rockline Infrastructure Ltd. · Client: Dangote Group · Gas Pipeline Augmentation & Metering Station Project | November 2016 – September 2017

- Supervised welding activities and inspected joints for defects and repairs; conducted welder qualification tests.
- Reviewed radiographic films and NDT results, witnessed hydrostatic testing, verified calibration certificates and prepared inspection reports.
- Coordinated field modifications with client representatives.

QA/QC Inspector

Twab Nigeria Ltd. · Client: NIPCO Nigeria Ltd. · 12-inch Pipeline Project, Lagos–Ibadan Road | June 2015 – December 2015

- Inspected pipeline welding and construction activities; prepared punch lists and non-conformance reports.
- Coordinated defect rectification with contractors and maintained inspection and quality records.

Plant Asset Inspector

Kontrak Engineering Ltd. · Client: Nigeria Gas Company / NDPHC · NIPP Power Stations | July 2014 – April 2015

- Inspected vessels, tanks, pumps, valves and piping; witnessed hydrotesting, vacuum-box testing, MT and UT thickness measurements.
- Prepared inspection reports and fitness-for-service assessments while checking compliance with standards and safety requirements.

Welding Inspector / NDT Technician

Siemens Nigeria / Siemens Germany Projects · Geregu Gas Turbine Power Plant, Phase I | July 2012 – December 2013

- Performed welding inspection and NDT activities and verified compliance with project codes and specifications.
- Worked on weld procedure qualification records (WPQR) and supervised welder qualification tests.

NDT Technician

Adax Petroleum / DPS Oil Services · Offshore Platforms | 2007 – 2008

- Conducted VT, MT and PT inspections on welded joints, identified defects and supervised repairs under approved procedures.

EDUCATION

- **Bachelor of Technology (B.Tech), Mechanical Engineering** — Mewar University, India
- **Higher National Diploma (HND), Mechanical Engineering** — Kaduna Polytechnic
- **National Diploma (ND), Mechanical Engineering** — Federal Polytechnic, Bida
- **SSCE** — Saint Peter's Grammar School, Agenebode

PROFESSIONAL CERTIFICATIONS & MEMBERSHIP

AWS Associate Certified Welding Inspector (CAWI) · ASNT Level II – NDT · Magnetic Particle Testing (MT) · Dye Penetrant Testing (PT) · Radiographic Film Interpretation (RFI) · QMS Internal Auditor · Pressure Vessel Fundamentals

Professional membership: American Society of Mechanical Engineers (ASME)

AI AUTOMATION & SOFTWARE PROJECTS

Reputation & Feedback Intelligence Engine — n8n and OpenAI API capstone developed through TS Academy's Hajime Cohort; focused on customer-feedback processing, sentiment/severity classification, routing/escalation, repeat-customer tracking and response drafting.

Core Calculator Service — HTML, CSS and JavaScript practice project. **Python CLI Calculator** — division-by-zero handling and module-header correction following maintainer feedback. These are learning projects; no unverified outcomes are claimed.
